Be Aware of Watershed Locations

You may have noticed that the Village has watershed signs throughout the community to notify residents where watershed limits begin. A watershed is an area of land in which all storm water drains to the same location. In Lindenhurst, certain houses reside in watersheds, and collectively this water ultimately drains to the same lake.

This means that it is important for each resident to keep harmful materials out of storm drains, and out of the lakes. Please be aware when you see these signs, and take extra care by following these recommendations: mulch or bag grass clippings; pick up pet waste; if you wash cars outside, choose a phosphate-free cleanser; and, use phosphate-free fertilizers.

For more information about Lindenhurst’s lakes, and where watersheds are located, please visit www.lindenhurstlakes.com.
