

For Immediate Release

September 14, 2018

2018 LINDENHURST CONTRACTUAL PAVEMENT PATCHING

Lindenhurst Public Works will begin Contractual Pavement Patching beginning the week of September 17th; weather permitting. This work consists of removing 4 inches of bituminous asphalt from the roadway and replacing with new bituminous asphalt to the same depth. This year Chicagoland Paving was awarded the work and will begin moving equipment in over the next 48 hours.

Some patch work will transverse driveways and may be an inconvenience to the resident. This inconvenience will be temporary as the contractor will remove and replace the same day.

Roads are continuously evaluated and then prioritized for this contractual work. Although you may not see a location near you; throughout the year, Public Works will continue evaluating and pavement patching at additional locations.

As with all construction projects a little dust and delay can be expected. We appreciate your patience and understanding.
