SPRING RESTORATIONS

Public Works has begun replacing damaged sod from our plow trucks and restoring water main repair excavation sites from this past winter. This work consists of removing damaged sod and/or gravel to a depth of 6 inches and placing clean topsoil. Seed and an excelsior blanket will be added to excavation sites to ensure proper growth. The excelsior blanket is biodegradable and is usually removed in 3 – 4 weeks once grass has been established. To expedite the growth; you are invited to help by watering the areas but is not necessary with the spring rains. The following are locations that will be addressed. If you do not see your address, please visit www.lindenhurstil.org and enter a service request for the work. Some areas may be skipped over until the asphalt replacement has been completed.

	<i>Federal Pkwy (Island)</i>	<i>2324</i>	<i>Carriage Lane</i>	<i>408</i>	<i>Northgate Road</i>
<i>643</i>	<i>Penn Blvd.</i>	<i>103</i>	<i>Chestnut Circle</i>	<i>2200</i>	<i>Rolling Ridge Lane</i>
	<i>Potomac Court</i>	<i>601</i>	<i>Crabtree Circle</i>	<i>2402</i>	<i>Rose Tree Lane</i>
