

## Grand Avenue Construction Update

Berger Construction is continuing with the installation of the main line storm sewer along the center of Grand Ave. This construction stage will continue for the next few weeks. Access to all driveways, residential properties as well as businesses, will stay open throughout the construction. As the different phases of staging progress construction may limit access of driveways but that time frame will be minimal. The major work effort of stage one is the installation of the main line storm sewer down the center of the roadway. Traffic will be shifted to the outside lanes in both directions. Please refer to information posted on the message boards located at the east and west end of the project limits along Grand Ave. as well as at Sand Lake Rd. east of Grand Ave.
