

Grand Avenue Update 5/23/19

Berger Construction is continuing with the installation of the main line storm sewer. The installation has now shifted to the south side of Grand Ave and continue wall construction in front of Police/Village Hall. This construction stage will continue for the next few weeks. The weather has delayed the progress of the construction project. Traffic lanes have been shifted at the intersection of Grand Ave and Sand Lake Rd. The centerline trench is scheduled to be paved within the next few days. The next stage of construction will shift traffic to the North side of Grand Ave. Access to all driveways, residential properties as well as businesses, will stay open throughout the construction.
