

Grand Avenue Update 5/31/19

Berger Construction is continuing with the installation of the main line storm sewer along the south side of Grand Ave. The weather has delayed the progress of the construction project. Traffic lanes have been shifted at the intersection of Grand Ave and Sand Lake Rd. The remainder of the centerline trench is scheduled to be paved within the next few days. Once the centerline trench paving is complete the next stage of construction will shift traffic to the North side of Grand Ave. Access to all driveways, residential properties as well as businesses, will stay open throughout the construction.
