Lindenhurst, Illinois – Public Works will be performing minor road repairs along Springhill Lane and the 700 block of North Beck Road the week of 06/17/19; weather permitting. This work will entail the removal of the surface layer of the road and replacing with new asphalt. Grindings will be left in place at the onset but you may drive over as needed. At times during the repaving the road may be down to a single lane. Flaggers will be onsite during the work to help direct traffic. Thank you for your patience and understanding.
