

Milburn By-Pass Update (06/27/19)

### U.S 45 relocation

U.S. 45 @ Haven

U.S. 45 @ Haven

Berger Construction has completed the final mainline concrete pavement from the northern project limit to approximately 600 feet south of Haven Lane. Weather conditions have slowed construction progress. Small areas of concrete were poured Wednesday 6/26/19. Within the next few weeks Haven Lane will be shifted to the completed concrete pavement as well as an area of temporary pavement. Traffic will be shifted to the south half of Haven Lane, so the north half can be improved.

Below is a rendering of the proposed realignment of Grass Lake Road. Beyond the new roadway, sidewalks and a multi-use asphalt path will be installed as part of the project. Route 45 will be concrete pavement and Millburn Road and Grass Lake Road will be asphalt pavement.
