

Public Notice

Fall 2020 Water Main/Hydrant Flushing

Lindenhurst Public Works will conduct its water main/hydrant-flushing program October 5th through October 23rd. Water main/hydrant flushing activities will be conducted during the day from 8:00 a.m. through 2:30 p.m., Monday through Friday.

The Fall 2020 program should last approximately four weeks. During this time, customers may notice episodes of decreased water pressure or discoloration of their water; this is expected and temporary, and should subside once flushing is complete. Water discoloration results from temporary disturbances of the normal water flow within our piping network. These short term changes in flow can stir up naturally occurring minerals and sediment that settle within the water mains. The objective of the water main/hydrant flushing program is to remove these accumulated sediments from our piping by flushing the fire hydrants.

If water discoloration occurs, residents should run their cold water faucets until the water appears clear. If you live near the target flushing areas, Public Works recommends refraining from clothes washing during daily flushing hours.

The below Flushing Schedule reflects the dates of crew locations for the main/hydrant flushing program. Addresses given are within the proximity of the hydrant to assist in identifying main/hydrant flushing in your area. Please contact Village Hall with any questions or concerns: 847-356-8252, or email mail@lindenhurstil.org.
