

Public Notice

Fall 2021 Water Main/Hydrant Flushing

Lindenhurst Public Works will conduct its water main/hydrant-flushing program October 11th through October 22nd. Water main/hydrant flushing activities will be conducted during the day from 8:00 a.m. through 2:30 p.m., Monday through Friday.

The Fall 2021 program should last approximately two weeks. During this time, customers may notice episodes of decreased water pressure or discoloration of their water; this is expected and temporary, and should subside once flushing is complete. Water discoloration results from temporary disturbances of the normal water flow within our piping network. These short term changes in flow can stir up naturally occurring minerals and sediment that settle within the water mains. The objective of the water main/hydrant flushing program is to remove these accumulated sediments from our piping by flushing the fire hydrants.

The flushing is designed to clean the lines, which prevents possible problems in the future. If water discoloration occurs, residents should run their cold water faucets until the water appears clear. If you live near the target flushing areas, Public Works recommends refraining from clothes washing during daily flushing hours.

The below Flushing Schedule reflects the dates of crew locations for the main/hydrant flushing program. Do not be alarmed if your specific hydrant address is not listed; the addresses given encompass multiple hydrants within that general proximity. Please contact Village Hall with any questions or concerns: 847-356-8252, or email mail@lindenhurstil.org.
