

## 10/15/2021 Aquatic Services Report

### LAKE LINDEN

---

*Dissolved Oxygen (PPM):* 8.4 mg/l

*pH:* 8.1

*Water Temperature:* 65.1

*Vegetation Present:* none

*Work Done:* The lake looks fantastic! No active plant growth was detected during my survey today. As I walked the perimeter I checked the water quality and results have been recorded in the work order.

### LAKE POTOMAC

---

*Dissolved Oxygen (PPM):* 8.3 mg/l

*pH:* 8.1

*Water Temperature:* 63.5

*Vegetation Present:* 10% duckweed

*Work Done:* The lake looks extremely healthy today. I detected a small amount of duckweed during my survey of the water body. As I walked the perimeter I checked the water quality and results have been recorded in the work order.

## SPRING LEDGE

---

*Dissolved Oxygen (PPM): 8.9 mg/l*

*pH: 8.1*

*Water Temperature: 64.2*

*Vegetation Present: <1% Duckweed*

*Work Done:* The lake looks extremely healthy today. I detected a small amount of duckweed during my survey of the water body. As I walked the perimeter I checked the water quality and results have been recorded in the work order.

## WATERFORD LAKE

---

*Dissolved Oxygen (PPM): 8.4 mg/l*

*pH: 8.2*

*Water Temperature: 63.0*

*Vegetation Present: < 1% planktonic algae*

*Work Done:* There was a small amount of planktonic algae detected during my survey of the lake today. I have performed a light algaecide application to reduce planktonic growth. As I walked the perimeter I checked the water quality and results have been recorded in the work order.
