## **Village of Lindenhurst Requests Feedback from Business Owners**

**Lindenhurst, Illinois** – The Village of Lindenhurst is asking the business community for feedback on their business needs, opportunities, and challenges by taking an anonymous survey.

As an ongoing effort to bolster development, assist businesses and grow relationships within the private sector, the online survey will assist the Village in identifying and addressing economic and community development issues and concerns.

Lindenhurst Businesses are invited to visit the online survey at: <https://www.surveymonkey.com/r/LindenhurstEDBusinessSurvey>.

The survey offers businesses to provide their contact information, but providing that information is optional. The survey will be available through Friday, March 17, 2023, but will be extended until all businesses can provide their input.

"Lindenhurst is excited to hear from our businesses to have a better idea of where the Village's weaknesses are concerning business development and retention, along with knowing how we can assist our businesses ensure their continued success," said Anita Archambeau, Lindenhurst Economic Development Specialist. "We encourage every Lindenhurst business to participate in the survey, and we will look forward to using their feedback for our ongoing economic development efforts."
